

# FIAT SERVICE LETTER

**SUBJECT:** ELECTRICAL RELAY CLUSTER

**VEHICLES:** ALL 1978 X1/9 VEHICLES EQUIPPED WITH AIR CONDITIONING

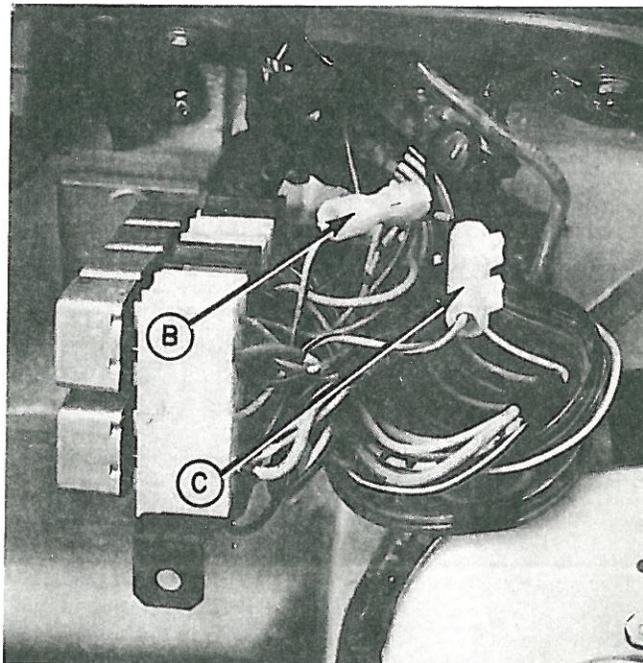

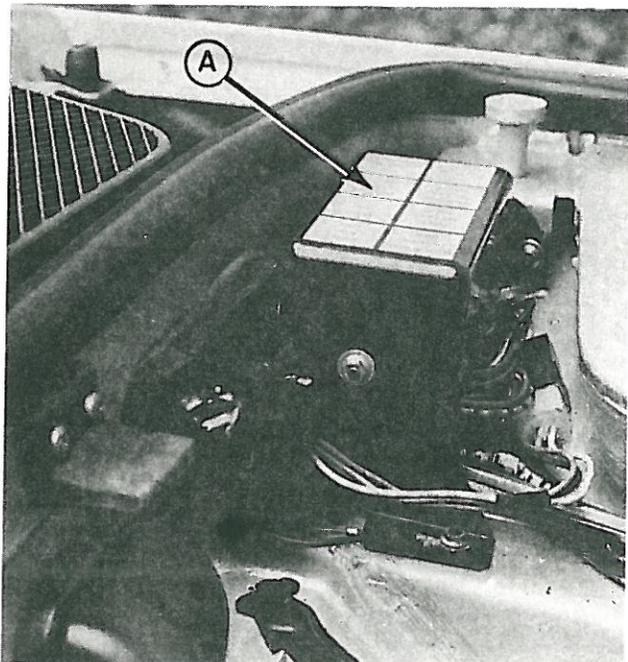

**SERIAL #:** STARTING WITH SERIAL #74001

**CONDITION:** Possible reversed wiring at the two inline wire connectors located underneath the relay cluster (A) in the front luggage compartment.

**CORRECTION:** During PDI or when one of the above-mentioned vehicles is being serviced, check the two inline wire connectors underneath the relay cluster for proper wire connection.

The wire connections must be as follows:

- Yellow and black to yellow and black (B)
- Blue and black to blue and black (C)
